[What Is a Rollover Car Accident? | Progressive](#)
Progressive : answers : what-is-rollover-car-accident

It occurs when a car's tire hits something such as a curb or ditch that shifts the vehicle's weight to one side, causing it to roll before it can regain its balance.
Speeding: If you speed around a curve or take a turn too fast, the tires can lose their grip on the road, leading to a vehicle rollover.
