<p&gt;Not Recommended 0.6 hrs on record&lt;/p&gt;
<p&gt;&lt;/p&gt;
<p&gt;Terrible game.&lt;/p&gt;
<p&ğt;&lt;/p&gt;
<p&gt;&lt;/p&gt;
<p&gt;&lt;/p&gt;
<p&gt;l just bought this, as , I was looking for a game that is exactly this
s premise. Alas, when I found this game, I bought it
                                                , and I was extremely dis
appointed. Just loading up the game took forever, and I kept having to close and
reopen
          , it. When it finally opened, it took 17 minutes just to do that. Yeah
. Now it's not like I have , a terrible laptop, my laptop is really good a
nd I' ve never had any issues with such a thing. Then, upon
                                                              , opening the g
ame, I couldn't look around because the default settings were set to ultra.
For the record, I don't
                           , really have an issue with game devs doing this,
but it leaves a bitter taste in your mouth. I had , to set the quality to very
low and even then it was still so laggy. It was 2 fps at , the most (like, no) Tj T* BT /F
```

, it was quite literally just pixels. The game was also very repetitive, s

o even if you have a NASA super-computer

, you will get bored of this really q
