The steelwork was prefabricated as a series of ; portal frame s that were craned down the alley and site-welded together. Given that every inc h in such a narrow space ; was valuable we chose to fully weld the conn ections and express the frame internally, even utilising the depth of the ; steels to maximise the space.; Alongside the painted steel a simple palette of spruce plywood, douglas fir joists, terrazzo and cork ; flooring enriches the interior. Extern ally the timber framed walls are clad in handmade pewter glazed brick slips with a patina ; that reflects the changing light of the sky. Both the simpl y landscaped and planted rear courtyard and the garden in ; front of th e house enhance the feeling of space in this small dwelling.; This self-build project had a long gestation, fitted ; in arou nd professional and family life. The design and construction were developed as t ime and money allowed so whilst planning ; consent was given in January 2014 and the ground works commenced in the spring of 2024, the building was not ; completed until August 2024. We worked closely with friend and joine r Michael Tye to lead a small team of local ; subcontractors and employ ed specialist fabricators for certain key packages as well as undertaking a fair amount of the work ourselves.; The ; result is a unique and highly crafted home that is a tes
