<p>Football corners predictions is one of the fairly new tips offered by t ipsters and by us. Some say it's luck 0, £ predicting corners in a football game, but we at AFootballReport find in corners very profitable markets especial ly in live events 0, £ when odds go very high as the game evolves. So how do we p redict corners? Of course as any other football O, £ prediction and corners are related to a number of pre-match and team factors. First of all we should see th e O, £ type of game we're looking for or the type of game we want to predict . Is it a game with O , £ a strong favorite or just two equally strengthen teams that play. If it's a game with a strong favorite probably 0, £ we should pay attention to the corners race predictions as strong favorites always keep the b all in possession more than 0, £ the other teams and create more chances as they push forward almost during the whole game. Keep in mind in O, £ live events tha t if the score is in favor of the favorite team then this team would not be so 0 £ motivated to create chances and would probably win less corners than in a dr aw event or from behind.</p> <p>Second thing we 0, £ should use when making our corners tips is to see the teams offensive tactics and teams that use wingers heavily in their attacks. For exam ple, some good wingers for O, £ the home team could easily produce more than 10-20 crosses in the penalty area which very often defenders clear in 0, £ corners. <:/p&qt; <p>Corners in the late stage of the game are more likely to happen than in the early minutes. Usually teams O, £ are very careful in the opening minutes o f a football game and they try to enter the game more passively O, £ than aggres sively. As the game continues depending on whether a team is losing or winning t he game is leading to 0, £ pushing forward and sending more players to attack or defend. This leads to significantly increasing the number of corners in O, £ th e last minutes and that is what we want when predicting corners.</p> <p>Spot derby games. Derby games are always poor in O, £ goals, but very r ich in corners and bookings and cards especially. No one wants to lose a derby, so teams 0, £ losing it push very hard to regain advantage, which always leads t eaks of teams that have more than 8, 9 or more corners in a row lead to same 0, £ or larger amount of them in future games. Those teams are basically that use o ffensive tactics and use wingers heavily 0, £ when they attack.</p> <p></p><div class="hwc kCrYT" style="padding-botto
