There are five components of physical fitness: (1) body composition, (2) flexibility, (3) muscular strength, (4) muscular endurance, and (5) cardiovascular fitness.

Physical fitness would include activities that address all of the health-related components of fitness.

EXERCISE GUIDELINES A. Health-related components of physical fitness

Overall, men (6.0 hours per week) spent more time than women (3.2 hours) walking at work on an average work day.

Overall, the amount of time spent walking at work on an average work day (in minutes) was significantly higher for men than for women.
