<p></p><p>According to critics and players alike, these seven

games fail to deliver despite their potential. Here's why they fall short &#

128178; and what we can learn from their mistakes.</p>

<p>1. E.T. the Extra-Terrestrial (Atari 2600, 1982)</p>

<p>One of the most notorious video game 💲 disasters of all time,

E.T. the Extra-Terrestrial was supposed to be a groundbreaking title that would

revolutionize gaming. However, it 💲 was released in an unfinished and n

early unplayable state, leading to its infamous reputation.</p>

<p>2. Superman 64 (Nintendo 64, 1999)</p>

<p>Another infamous 💲 entry in the world of video games, Superman

64 was plagued by poor controls, bland level design, and a lack 💲 of a

ny real substance. Despite being based on one of the most iconic superheroes of

all time, the game was 💲 a critical and commercial failure.</p>
