Designation of the Size of a Ski Jump: A 90 meter jump means that it is

90 meters from the end of the take off to

where the hill begins to flatten out or K point.

Jumps are judged on

style, distance and whether a K-point is reached or exceeded.

Five judges give style points to each of these segments of the jump. A perfect ski jump

would earn 20 style points from each judge. Points are deducted in point increments

for each of these three sections of the jump.
