The AI developed by Google for this game uses a complex algorithm that makes it nearly unbeatable, as it is designed to always make

the best possible move. However, it's not entirely impossible for a human to win, but it would require a rare set of circumstances and a mistake by the AI</span></div></div></div></div></div></div></div>

It is not possible to beat an artificial intelligence program at Tic Tac Toe using brute force</span></div>

, as the game has a limited number of possible outcomes and can easily be solved by the computer. Tic Tac Toe is a simple game with a relatively small number of possible

outcomes. Tic Tac Toe is a simple game with a relatively small number of possible
