Based on my research, I found that saques devolvidos have been a recurring problem on 7 Games, especially after the Data 1 update. Many users have reported issues with withdrawing their funds, and some have even had their accounts blocked without any explanation.

I also discovered that there are several factors contributing to this problem. Firstly, there seems to be a lack of transparency in the withdrawal process, which can lead to confusion and frustration for users. Secondly, the platform's customer support team appears to be unresponsive to user complaints, which exacerbates the issue.
To address this problem, I recommend that 7 Games implement a more robust payment system that allows for faster, more reliable, and transparent transactions. Additionally, the platform should register and address payment issues promptly to prevent them from escalating further.

In conclusion, the issue of saques devolvidos on 7 Games must be tackled promptly to ensure a positive user experience. Users must remain vigilant about the platform's policies and procedures, especially regarding financial transactions. Together, we can work towards creating a better, more reliable online gaming community.</p></div>
