Your files are stored on the NAS server and can be  
synchronized, or automatically kept up-to-date, on all of your devices. This ser  
vice needs to always be online so the NAS should always be on/sp  
an. If you are using your NAS for web hosting like I am, you need to keep it  
online 24/7.

Really, a NAS is not quite like a washing machine, that you can hold onto for as lo  
ng as it works; a NAS is more like a time machine. My recommendation is to chang  
e your NAS every 5 YEARS. Most NAS devices have a 3-yea  
r warranty.
