The odds are designed to encourage betting &#129297; on both sides of an event, ensuring that the bookie will make a profit regardless of the outcome. They do &#129297; this by adjusting the payout odds to favor the less likely outcome, thus ensuring a profit even if the majority &#129297; of bets are placed on the more likely outcome.&#233; Bookies also collect a commission, known as the &quot;vig&quot; or &quot;tjuice,&quot; on &#129297; losing bets. This commission is typically around 10 % of the total amount wagered. By collecting this fee on all losing &#129297; bets, bookies are able to generate revenue even if they pay out a significant amount of money to winning bettors.&#233; Finally, &#129297; bookies may limit the amount of money paid out to winning bettors. This is done to manage risk and ensure &#129297; that the bookie remains profitable. By limiting the payout to winning bettors, bookies are able to protect themselves from large &#129297; losses in the event of a significant upset or unexpected outcome &#233;
