Cooperative games in which players each

use their own display system are known as "online co-op", "network

co-op" or "multiplayer co-op" games; due to the majority of such systems

utilizing telecommunications networks to synchronize game state among

the players.

Nintendo Switch supports multiplayer gaming options of all kinds.

You can play together online or in the same room using one system or multiple

systems. Specific features vary by game, such as voice chat or split-screen

play, but sharing fun with friends and family is a key focus for Nintendo

Switch
