

up bet é confiável

</div>

It's important to note that the moneyline odds are typically presented in two formats: American and decimal. American odds are the most common in the United States, while decimal odds are more common in Europe and Asia. To calculate your potential payout on an underdog, all you need to do is multiply your stakes (the amount of money you wagered) by the value resulting from the moneyline odds divided by 100. Put simply:

Potential profit = Wager x (Odds/100).
